ports of call 3d crackedQ: C# Simple EXE Menu I'm writing a simple GUI application for an assignment, for which I have to use a menu. Basically, I want to make a menu with a list of items, and upon pressing a button, it opens up a form to the chosen item. I've been trying to do this using this tutorial: So far, I've done some research and found that the Action method is probably the way to go for the button. However, I'm not entirely sure how to go about using the built-in Winforms menu from the tutorial. Any help would be awesome, thanks. A: In this tutorial you will use a ListBox as the first item in the form's menu bar, then the button event handler will add the selected item to the ListBox that will be used as a reference to the form's Content property. As for adding images to the menu items, you can use DrawToBitmap which will let you draw text and images onto a Bitmap object and the bitmap property can be used to set the menu item's icon. Pages Thursday, January 30, 2011 Findings Went to my weight watchers this morning so I am going to get right to it. -I did not stay true to my 1 serving of fruit and 1 serving of veg thing. Last week I was truly poor at keeping track of my fruit and veg intake so I found that I was slipping out of the 1 serving of fruit and veg a day thing. I did stay true to a serving of protein and a serving of veg - Yes these are hard things to do but it is very important to me that I don't go on a fad diet and I also need to eat well as these past few months are going to be hard to maintain with the holidays and moving on with my life - A lot going on right now and I plan on keeping it all in check. -I did stay true to 2 slices of bread - I had 6 slices and one of them was 1 slice whole wheat - last week I took 7 slices and 2 were whole wheat. -I did not stay true to my 1 snack a day thing. Last week I ate a dozen cookies - I did not even finish 11! I was in the process of trying to
